CAS Engineering
xRM and CRM for small and
medium-sized companies

» A well-functioning CRM system is essential for global businesses. With CAS Engineering, we have successfully implemented a centralized platform at all our locations worldwide. «

Christopher Weiß, Key Account Manager

Industry sector

Mechanical engineering

Requirements

- Archive all sales-related documents with links to companies, contacts and projects
- Record and qualify inquiries
- Optimize internal processes
- Link all locations to a central database with location-specific access rights
- Multilingualism
- Reporting on all inquiries and the sales pipeline

Benefits and Advantages

- Transparency and always up-to-date database with a common data resource and use of the same solution in multiple languages for all locations in Europe, Asia and North America
- Overview of sales status with a 360-degree view of all communications and interactions
- Improved customer service including when mobile, as all relevant information is available and can be edited at the click of a mouse or using an app
- Exploiting customer potential: faster summarizing and weighting of all inquiries thanks to smart reports
